

HARTMANN
VALVES & WELLHEADS

Scraper Valve

Applications in Pipelines:

- Cleaning
- Drying
- Inspection
- Separation of Media

Hartmann's Scraper Valve provides an ideal Substitution for expensive Scraper Launch Systems:

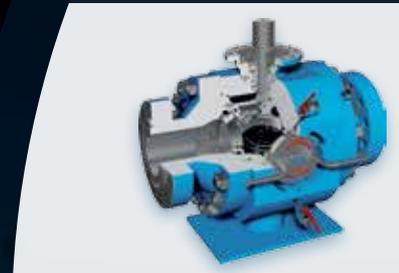

- Improved Safety
- Simplified Handling
- Reduced capital and operational costs
- Minimum space requirement

Special Features:

- 3-step, redundant Safety-Concept
- Gate with bayonet lock (safe and fast)
- Insert and remove Scraper easily
- Scraper length standard 1.4 times nominal diameter

Optional:

- Bypass
- Removable scraper catcher
- 180° Function (launch and receive)
- Customized Inner Diameter (cleaning or separation of media)

Scraper Valve

DN 500 PN 50

PED (DGRL)
API 6A
